YOUR PLACE IN
OUR POPULAR
CALIBRATION
PROGRAM

Calibration is at the very heart of what we do at CELEMETRIX.

Regular calibration of meters /instruments is not only critical, but in most cases, it is mandatory.

At CELEMETRIX we understand the importance of knowing that your assets are safe, accurate and performing to an optimal standard; ensuring you and your employees are adequately protected.

TRACEABLE & COMPLIANT

CALL NOW TO SECURE YOUR PLACE ON OUR ANNUAL MOBILE CALIBRATION PROGRAM IN YOUR STATE

Guaranteed quality assurance ISO 9001 certification.

Assets remain highly traceable adhering to the relevant statutory requirements (always complying with Australian or international appropriate standards and state requirements).

Our standard mobile calibration capabilities include;

- **OTDRs, Optical Light Sources, Power Meters and Attenuators**
- **Fusion Splicers and Cleavers**
- **Fluke Optifiber Pro**
- **Fluke DSX5000 & DSX8000**
- **Fluke Certifiber Pro**
- **PDH/SDH Bert Testers from 2MB/s 10Gb/s**
- **Ethernet Testers 10Mb/s-10Gb/s**
- **Optical Spectrum Analysers/ Multi Wave length Meters**
- **EXFO Maxtesters**

While these listed capabilities provide a comprehensive range of test and measurement equipment, we can also perform more complex jobs subject to advance notification and quantities as per below;

- **Torque**
- **Pressure**
- **Dimensional**
- **Temperature (including Infrared)**
- **Electrical**

Although we endeavour to service most assets, there are some instances where assets may need to be returned to our labs. In this case we can offer you our 24hour FastTrack service option.

So if you require a total servicing solution for your Test Equipment without the need for unnecessary and costly downtime contact CELEMETRIX today on 1800 256 838.
